

ONE KEY TOO MANY

CYBERSECURITY AWARENESS MONTH 2026

One password
for every account
sounds easy, but...

...a thief who
steals it can get
into them all!

Stolen password? Change it everywhere you used it, right away.

Use a different
password for
every account.

Make each one
long and hard
to guess.

Even if one is stolen...

This key
only opens ONE
account?!

Wait till you
hear about
passphrases!

YOUR MOVE:

Replace one reused password with a long, unique one.
